

Did you know...

ACT 1 supports simulcast stations Total Line Reporting (TLR) data.

A. Affiliate System Audience reports can display TLR flags for reported primary (p) stations and unreported secondary (s) stations.

B. Additional "Simulcast Stations" info about TLR station groups can also be displayed on Audience reports.

In the above A. & B. example, there are two separate cases of TLR groups:

Case 1: KAAA-AM is an unreported TLR secondary (#s) station with its audience reported under the KZZZ-AM primary. Since the KZZZ-AM primary station is missing from this lineup, none of the audience from either KAAA-AM or KZZZ-AM will be included. Notification about missing primary TLR stations is available in C., D. and E. (see below).

Case 2: KIIS-FM is a reported TLR primary (p) station, which has several secondary stations that contribute to its audience, including KVVS-FM, KIIS-F2, KIIS-HF and two other stations.

C. The Lineup Directory report can display missing TLR station data.

D. There is a button in Lineup Manager calling attention to missing TLR stations in the currently viewed lineup.

Clicking this button brings up a detailed report showing info on missing TLR stations, including...

E. Missing primary TLR stations,

F. Missing secondary TLR stations (some of which are AM/FM), and

G. Missing secondary digital TLR stations.

DMA Rank	Market/Station	Book	AQH	Rtg.	Simulcast Stations
11 Phoenix [PPM+D]NFa22					
	KAAA-AM	#s	0	0.0	(reported under KZZZ-AM)
	KIIS-FM	*p	100	0.0	KVVS-FM, KIIS-F2, KIIS-HF (+2 more)

Simulcast flags: p=primary station (reported) s=secondary station (unreported)

Missing TLR stations in lineup MOON

Lineup MOON references 9 TLR simulcast groups only partially (some stations are missing).
 > 1 group is missing its primary station (which reports the audience for the whole group).
 > 2 groups are missing only secondary stations, of which some are AM/FM.
 > 6 groups are missing only some digital secondary stations.
 > Total missing primary stations: 1
 > Total missing secondary stations: 15 (2 AM/FM and 13 digital)
 This report is based on February 2023 simulcast data. *=Indicates primary station

Simulcast Group	Stations In Lineup	Missing TLR Primary	Missing TLR Secondary(A/F)	Missing TLR Secondary(Dig.)
